

Paris Special School District Coordinated School Health Program

Coordinated School Health (CSH) is an effective system designed to connect health (physical, emotional and social) with education. This coordinated approach improves students' health and their capacity to learn through the support of families, communities and schools working together. The CSH approach consists of eight major components.

Paris Special School District CSH Coordinator:
Sherry Wagner
731-642-9322
